

WE ARE PLEASED TO HOST

GEORGIAN IMPLEMENTATION SCIENCE FOGARTY TRAINING (GIFT) PROGRAM

Implementation Science & Biostatistics Summer Bootcamp

An intensive training program hosted by Faculty of Medicine & School of Public Health, Iliia State University in collaboration with Yale School of Medicine & Yale School of Public Health

GIFT BOOTCAMP IN TBILISI, GEORGIA

21-24 JULY, 2026

JOIN US!

This year's bootcamp will bring together international public health professionals, researchers, early-career scientists, and implementation science practitioners for four days of focused training and international exchange. To better understand the bootcamp context, including programs from previous years, please visit our website: <https://gift.iliauni.edu.ge/>

We welcome participants from Georgia and other low- and middle-income countries. The program will include morning plenary sessions and specialized afternoon training tracks, designed to accommodate different levels of experience:

- **Implementation Science - Core Foundations**
- **Biostatistics - Core Principles**
- **Biostatistics - Advanced Methods**

The training will be held in **Tbilisi, Georgia**. Participation in the training is free of charge and includes meals during the four-day sessions. Travel and accommodation costs are the responsibility of participants.

Attend at least 3 days to receive a joint Yale–Iliia State University certificate.

For questions, please contact: giftbootcamp@gmail.com

Registration will open in **June 2026**.

Stay tuned for further details and follow us www.gift.iliauni.edu.ge
